## The Dirty Truth about Pet Waste

The Delaware Estuary reminds us that when your pet goes on the lawn, that it doesn't just go on the lawn. Here are some things you can do to minimize pollutants in our waterways and practice safe stormwater management:

1. Scoop up pet waste. As long as the droppings are not mixed with litter or other materials, flush it down the toilet. This is best because then a sewage treatment plant or your septic system treats the pet waste.

2. Bag your pet's waste and put it in the trashcan.

3. Never put pet waste into the storm drain.

4. If your community does not regulate pet waste (e.g. "scooper" law), try to make it a priority of your local governing body.

5. Encourage your neighborhood to provide pet waste stations for collection and disposal of waste.

Check to see if the parks in your neighborhood have them. For more information, visit the Delaware Estuary at [www.delawareestuary.org](http://www.delawareestuary.org).

Let's Go Flyers!

## Department of Fire Services: Some Tips on Escape Planning

- Prepare and practice an escape route with all residents in the home, including children.
- Know two ways to exit from every room in your home.
- Make sure safety bars on windows can be opened from inside your home.
- Crawl low, under smoke.
- Feel closed doors. If hot, use another exit.
- Identify a place to meet household members outside.
- Call 9-1-1 or the local emergency number after you escape.
- Never go back inside a burning home.
