Building Valuation Data – FEBRUARY 2025

The International Code Council is pleased to provide the following Building Valuation Data (BVD) for its members. The BVD will be updated at six-month intervals, with the next update in August 2025. ICC strongly recommends that all jurisdictions and other interested parties actively evaluate and assess the impact of this BVD table before utilizing it in their current code enforcement related activities.

The BVD table provides the “average” construction costs per square foot, which can be used in determining permit fees for a jurisdiction. Permit fee schedules are addressed in Section 109.2 of the 2024 *International Building Code* (IBC) whereas Section 109.3 addresses building permit valuations. The permit fees can be established by using the BVD table and a Permit Fee Multiplier, which is based on the total construction value within the jurisdiction for the past year. The Square Foot Construction Cost table presents factors that reflect relative value of one construction classification/occupancy group to another so that more expensive construction is assessed greater permit fees than less expensive construction.

ICC has developed this data to aid jurisdictions in determining permit fees. It is important to note that while this BVD table does determine an estimated value of a building (i.e., Gross Area x Square Foot Construction Cost), this data is only intended to assist jurisdictions in determining their permit fees. This data table is not intended to be used as an estimating guide because the data only reflects average costs and is not representative of specific construction.

This degree of precision is sufficient for the intended purpose, which is to help establish permit fees so as to fund code compliance activities. This BVD table provides jurisdictions with a simplified way to determine the estimated value of a building that does not rely on the permit applicant to determine the cost of construction. Therefore, the bidding process for a particular job and other associated factors do not affect the value of a building for determining the permit fee. Whether a specific project is bid at a cost above or below the computed value of construction does not affect the permit fee because the cost of related code enforcement activities is not directly affected by the bid process and results.

Building Valuation

The following building valuation data represents average valuations for most buildings. In conjunction with IBC Section 109.3, this data is offered as an aid for the building official to determine if the permit valuation is underestimated. Again it should be noted that, when using this data, these are “average” costs based on typical construction methods for each occupancy group and type of construction. The average costs

include foundation work, structural and nonstructural building components, electrical, plumbing, mechanical and interior finish material. The data is a national average and does not take into account any regional cost differences. As such, the use of Regional Cost Modifiers is subject to the authority having jurisdiction.

Permit Fee Multiplier

Determine the Permit Fee Multiplier:

1. Based on historical records, determine the total annual construction value which has occurred within the jurisdiction for the past year.
2. Determine the percentage (%) of the building department budget expected to be provided by building permit revenue.
- 3.

$$\text{Permit Fee Multiplier} = \frac{\text{Bldg. Dept. Budget x (\%)}}{\text{Total Annual Construction Value}}$$

Example

The building department operates on a \$300,000 budget, and it expects to cover 75 percent of that from building permit fees. The total annual construction value which occurred within the jurisdiction in the previous year is \$30,000,000.

$$\text{Permit Fee Multiplier} = \frac{\$300,000 \times 75\%}{\$30,000,000} = 0.0075$$

Permit Fee

The permit fee is determined using the building gross area, the Square Foot Construction Cost and the Permit Fee Multiplier.

$$\text{Permit Fee} = \text{Gross Area} \times \text{Square Foot Construction Cost} \times \text{Permit Fee Multiplier}$$

Example

Type of Construction: IIB

Area: 1st story = 8,000 sq. ft.

2nd story = 8,000 sq. ft.

Height: 2 stories

Permit Fee Multiplier = 0.0075

Use Group: B

1. Gross area:
Business = 2 stories x 8,000 sq. ft. = 16,000 sq. ft.
2. Square Foot Construction Cost:
B/IIB = \$265.76/sq. ft.
3. Permit Fee:
Business = 16,000 sq. ft. x \$265.76/sq. ft x 0.0075
= \$31,891.20

Important Points

- The BVD is not intended to apply to alterations or repairs to existing buildings. Because the scope of alterations or repairs to an existing building varies so greatly, the Square Foot Construction Costs table does not reflect accurate values for that purpose. However, the Square Foot Construction Costs table can be used to determine the cost of an addition that is basically a stand-alone building which happens to be attached to an existing building. In the case of such additions, the only alterations to the existing building would involve the attachment of the addition to the existing building and the openings between the addition and the existing building.
- For purposes of establishing the Permit Fee Multiplier, the estimated total annual construction value for a given time period (1 year) is the sum of each building's value (Gross Area x Square Foot Construction Cost) for that time period (e.g., 1 year).
- The Square Foot Construction Cost does not include the price of the land on which the building is built. The Square Foot Construction Cost takes into account everything from foundation work to the roof structure and coverings but does not include the price of the land. The cost of the land does not affect the cost of related code enforcement activities and is not included in the Square Foot Construction Cost.

MONTGOMERY COUNTY PLANNING COMMISSION (MCPC)

Act 247 Review Guidelines

For reviews in accordance with the Pennsylvania Municipalities Planning Code (Act 247) as amended

Effective May 1, 2018

Required Fees and Time Limits

To determine the applicable fee and review time limit for MCPC reviews, reference the appropriate section of the Pennsylvania Municipalities Planning Code as follows:

	Act 247 Section	Fee	Time Limit (days)
301.3	Comprehensive Plan Amendments	No	45
304	Public Facilities	No	45
305	Public School Facilities	No	45
408	Official Map	No	45
502	Subdivision and Land Developments	Yes	30
505	Subdivision & Land Development Ordinance Amendments	Yes*	30
609	Zoning Ordinance or Map Amendments	Yes *	30
609.1	Curative Amendments	Yes *	30

**** Fees will be charged for private petitions (developer/landowner) for zoning ordinance/map amendments, SALDO amendments and curative amendments. (See fee schedule)***

- A time limit may be extended if requested by the applicant or by the municipality. If a municipality requests a time extension, it must be in concurrence with the applicant.
- Whenever applications require more than one type of review or otherwise fall under more than one section of the Pennsylvania Municipalities Planning Code, the Montgomery County Planning Commission will attempt to complete all reviews within the shortest official time limit. However, MCPC reserves the right to use the maximum permitted time limit if needed.

Application Procedure

1. The applicant submits the plans and a completed Applicant Request for County Review form to the local municipality.
2. The municipality will submit the application to the county via an online 247 Submission Portal. After the county receives and verifies the submission for accuracy, the county will forward a summary of the application and a request for payment to the applicant's representative.
3. The applicant may pay any county fees online via a credit card or electronic check, or they may choose to send a check or money order to the county made payable to the MONTGOMERY COUNTY TREASURER. More specific instructions for both options will be sent with the application summary.

4. The review time limit is intended to begin when MCPC receives the application from the municipality provided applicable fees and any necessary information are promptly returned. Should payment or requested information go unresolved, the county may suspend or postpone the review time limit.
 5. In the event of a returned check, the MCPC review and its corresponding time limit will stop as of the date we receive notification. MCPC will notify the applicant and municipality. The review process will restart on the date MCPC receives the required fee.
-

Fee Information

Resubmissions

The fee schedule and time limits will apply regardless of whether the submitted application is for the review of a tentative sketch, preliminary plan, or final plan. Once the initial fee has been received, MCPC charges a fee for the resubmission of subdivisions and land developments that are essentially the same as the former submission. A flat fee of \$125 is required for all residential subdivisions/land developments. No fee is required for residential subdivisions/land developments of 3 lots/units or less. A flat fee of \$190 is required for the resubmission all non-residential subdivisions/land developments. No fee is required for non-residential subdivisions/land developments of 3 lots or 3,000 square feet or less respectively. A subsequent plan is NOT a resubmission and requires full fee payment if it is more than 5 years after the previous submission, the proposed land use is changed, or the number of dwelling units or square footage has changed by more than 40% from the prior submission.

Waiver of Fees

Fees are waived for an application filed under the name of a governmental subunit of the United States or the Commonwealth of Pennsylvania, including school districts and authorities. This exemption does not apply to private nonprofit organizations except for volunteer fire companies and ambulance squads.

Refunds

If MCPC fails to complete its review within the required time limits, the fee will be returned to the applicant upon request, except in those instances involving an incorrect fee or incomplete application or when MCPC has been granted a time extension for the review.

Informal Reviews and Special Circumstances

Meetings with MCPC to discuss applications, either prior to or during the formal review process, are encouraged and free of charge. If the applicant requests the meeting, the local municipality will also be invited. Meetings and informal reviews do not replace the official formal review by MCPC. In addition, if a municipality requests any meetings, court appearances, redesigns, or other special events that are related to the MCPC review, no extra fees will be charged. Similar requests by developers will be charged appropriately in accordance with fees for staff services.
