## **Montgomery Township Electrical Inspection Policy**

Montgomery Township does not provide in-house electrical inspection services. These services must be obtained by the applicant from one of the authorized electrical inspection agencies listed below. Rough and final electrical inspections must be obtained by the applicant and proof thereof provided. The applicant is responsible for fees required by the selected agency for the services provided.

The rough electrical inspection must be obtained and passed prior to scheduling the Township rough framing inspection. The final electrical inspection must be obtained and passed prior to scheduling the final U&O inspection with the Township. At each of these inspections, the electrical inspection agency must provide an electrical inspection sticker on or near the main distribution panel and must attach an electrical inspection “cut card” for the inspector to remove and retain for Township record.

### **List of Authorized Electrical Inspection Agencies**
